#### Chicago Grain and Provisions, New York Stecks.

BRANCH-16 West Tenth St., Anderson, Ind. Long Distance Telephone. 1375. 11 and 13 WEST PEARL STREET.

#### LOWER LONDON PRICES

CAUSED TRADERS ON THIS SIDE TO FIGHT SHY OF STOCKS.

Later a Rally Set In and Losses Were Partly Recovered-Local Markets Were Flat.

At New York yesterday money on call was firm at 21/265 per cent.; last loan, 21/2; closed. 21/2.

business in bankers' bills at \$4.86%@4.87 for demand and \$4.85% @4.86 for sixty days; posted rates, \$4.86%@4.87 and \$4.88@4.88%; commercial bills, \$4.85. Bar silver, 5.C. Silver certificates, 66% 667%c. At London bar silver closed at 30 13-16d per ounce.

Total sales of stocks were 180,204 shares, including the following. American Sugar, 60,800; Burlington & Quincy, 7,800; Chicago Gas, 10.900; Louisville & Nashville, 4,900 Manhattan, 19,300; Northwest, 7,300; Rock Island, 3,000; St. Paul, 26,900; Western Union, 6.100; silver certificates, \$15,000. The stock market yesterday was only

moderately active and the dealings were almost entirely professional. Some irregularity was manifest in the early trading, owing to unfavorable reductions made as to the future of the money market based on the decreasing reserves of the city banks. Lower London prices and selling for foreign account were also factors in encing realizations and selling by the traders. The news bearing up on the gen-eral market was light, but a rallying ten-dency soon became evident and prices moved sharply upward on the announcement of further weakness in the foreign exchange market. Actual figures touched 4.85% and \$4.86% for long and short bills and in some cases sixty days. Posted rates were quoted at \$4.86%. The dearth of comon house orders attracted attention. The arbitrage houses sold the principal international stocks, but without much in-fluence on prices. A raid on Marhattan fol-lowed the publication of the quarterly report and precipitated a decline in the gen-eral list. Manhattan broke 2% per cent. to 74%, and considerable heaviness was also apparent in Western Union. Metropolitan raction was more freely traded in than usual, and after an initial rise of 3 per cent. scored further gain to 89. The improvement in this specialty was ascribed to the favorable traffic returns. The afternoon dealings were characterized by extreme dull; ss, but high +: prices prevailed and with the net changes as a rule, substantial gains. The subscriptions to the \$3,433,033 of city bonds, while in excess of the offerings, were on a more careful inspection, regarded as only moderately satisfactory in point of price. Sugar assumed the leadership in strength and rose 2 per cent., to 1054. Manhattan jumped to 75%, but lost the fraction later. Gains of a point or thereabouts were made in the grangers and other leading shares. The Northwest annual statement, which was published after the close of business, made fully as good a showing as had been foreshadowed in the street previously, a surplus of dividends

Trading in bonds was considerably restricted, the total footing up only \$487,000. Strength, however, was displayed generally, although several of the inactive high-priced issues declined severely. The prin-cipal advances are: American Spirit sixes, : New York Central firsts, 3; Hocking Valey sixes, 2%; St. Paul & Omaha consols, Oregon Navigation fives, Kansas & Texas fours, Louisville & New Albany fives, Ontario & Western refunding fours and Texas & Pacific seconds, 2; Southern fives, 1%; rlington, Nebraska division, fours and st, Louis Southwestern firsts, 11/2 per cent. Government bonds were quiet, but irregclar on dealings of \$22,000. In State bonds \$5,000 Virginia centuries brought 55. Silver certificates were weak and sagged 114 per

of \$1,851,024, as shown against a deficit of

cent., to 66%c, on sales of \$15,000. The following table, prepared by L. W. Louis, Room 13, Board of Trade, shows the range of

### "MOON VIEWING."

Poetic Festival in the Little Japanese Island of Miyajima.

Eliza Ruhamah Scidmore, in the Century. They were such kindly village and fisherfolk that we soon grew attached to our neighbors and one old sendo, or boatman, and his sons were our daily companions. They knew where to take us in the morning to see best the beautiful tangled and rocky shores, sculling the flat-bottomed XXXX powdered, 5.35c; mold A. 5.23c; diamond A. 4.98c; confectioners' A. 4.85c; 1 Columbia A— arched rocks that framed charming pic-keystone A. 4.73c; 2 Windsor A—American A. tures, and we never tired floating about the 4.73c; 3 Ridgewood A—Centennial A. 4.73c; 4 colossal torii, the spell of which was Phoenix A—California A. 4.73c; 5 Empire A—Franklin B. 4.67c; 6 Ideal Golden ex. yellow, 3.60c. 5-Messina, choice, \$4@4.50 per box; fancy the shore at sunset, letting us see two of the ten forts of the island's defenses, their portholes and casements masked in foliage and looking innocently down upon the narrow, tide-swept strait that commands one entrance to Ujina. Incoming junks seemed to reef their sails purposely for us. fishermen cast and drew their nets, and all of picturesque water life showed until There was only a little time of darken-

ing grayness and real night before a pale effulgence showed behind the heights, and O'Chiku San rose, tangled herself in pine tree's branches, soared clear for while as she turned the whole bay, the temple, and torii to silver, and then, like fair to prime, 20@30c; choice, 35@40c; syrups, 18@ a true Japanese moon, barred herself across with narrow cloud-bands. There were quiet groups and solitary souls muttering under the breath on the hill beside the Taiko's hall, and looking down upon the temple, which seemed to be truly floating on a full-flowing silver sea; every court was a shining space, and no sound was heard save the distant hand strokes of those praying before the shrines. From this vision of enchantment we went by shadowy streets to our maple-leaf home, where the witchery of moonlight filled the little glen with more of fairy land than ever. At our doorway a little altar table had been placed and two plates of the rice dumplings symbolic of abundance and prosperity, and a vase of Lespedeza and the early "autumn weeds," illuminated by the flame of a tiny wick laid over the edge of a saucer of oil, were set in silent offerings to O'Chiku San. A deer stood back in the shadows, gazing with shining eyes turbed the homely altar until dawn showed the saucer burned dry of its oil and the

greatest moon festival of the year was Pensions for Veterans.

# WHEAT FUTURES LOWER

UNCERTAIN FINANCIAL OUTLOOK CAUSED A DROP IN CHICAGO.

Oats Showed Strength on Poor Grading of New Arrivals-Provisions Firmer and Advancing.

CHICAGO, Aug. 17 .- The uncertain financial outlook controlled the wheat market to-day, and prices for September declined %c on moderate trading. Corn ruled weak. although showing but little change. Oats were strong, and closed %c higher. Provisions show net advances of 5@171/2c.

What was only moderately active, and the trading was largely by the scalpers. commission houses doing very little, and the outside business continues at a standstill. The fluctuations covered a range of 11/2c. The market was weak from the start. cables coming easier, the world's shipments promising to be much larger than last week, and the local arrivals being double the estimate. There was some selling by longs on this showing, and the weak stock market and the general distrust of finances helped the early decline.

But later in the day low temperatures in the extreme northwest, especially in Manitoba, where the mercury was below the freezing point, caused some apprehension of injury from frost, and, stocks improving about the same time, the market reacted, early sellers attempting to cover, and all the early loss was recovered. The corner of Market and Pennsylvania streets, In-dianapolis. Suite 229, first office floor, The showed a reduction of only 550,000 bushels last week, where 1,000,000 bushels reduction was expected. This took away from the market all the strength it had gained, and there was a drop of nearly %c from the top figures. The market ruled quiet and easy after this to near the close, when the small official world's shipment figures caused a quick rally of ½c, the closing feeling being steady. September opened easy about 4c lower at 54%c, declined to 54%c, reacted to 55@55%c, broke to 54c, and recovered to 54%c, that being the closing quotation. Corn was quiet, and though showing | ter easy; domestic, 3.75@3.80c. some strength while wheat was at the top price, sold off later when wheat broke. The price, sold off later when wheat broke. The buyers very scarce, even at 2.50c. Spelter-continuance of favorable crop reports was Holders asking 3.55c, but selling none. also an element of weakness. September 2,509 | opened about %c lower at 28%c, sold down to 22% @221/2c, rallied with wheat and closed 3,000 easy at 22% 22% c.

There was an active market in oats, and unsettled feeling, with a higher range. The feature was the buying of September by shorts and elevator people. They advanced | for moderate parcels of printed fabrics, low grades 4c, and closed strong at the top, with a gain of 1/8@3/sc, due largely to the poor grad-Minnie and Myrtellus Sotherwaite, 575 North lower at 164c, and sold up with slight fluctuations to 16%c, which was the closing

Provisions were active all day, and the feeling in a general way was decidedly stronger. The demand was active, while offerings were not quite so liberal, and live stock prices ruled higher. The mar-ket opened rather steady at the closing figures of Saturday, but the competition for the offerings was brisk, and prices were oy.

Elsewhere.

CHICAGO, Aug. 17 .- There was an active and stronger market to-day, and choice dry-fed native steers were in particularly good demand, anything at all desirable selling about 10c higher. Sales were brisk at \$4@4.65 for medium to strictly choice steers, while plenty of grassy cattle sold at \$3.50@3.95. The bulk sold at \$4.15@4.50, and the market closed very strong, big steers selling better than in a long time. Both Eastern and Western buyers were again good pur-chasers of stockers and feeders at strong prices. Canning cattle sold as low as ever, but fat butcher cows and helfers were active and strong, and so were good bulls and choice veal calves. Texas cattle were firm, steers selling at \$2@3, and Western rangers at \$3@2.60. Hogs—Packers allowed prices to advance 5@10c, light and medium weights moving up the most, and there was active buying both on home and shipping orders. Heavy hogs sold at \$2.75@3.30; mixed lots, \$3.10@3.40; light weights, \$3.15@3.50. Sales were largely at \$3@3.10 for heavy, \$3.15@ 3.25 for medium and \$3.35@3.45 for light weights. Sheep-There was an active general demand and prices advanced about 10c for desirable after the opening on a big decrease in the amount sheep and 10@20c for lambs. Sheep moved off affoat, steadier cables and reports of frost in the Northwest, eased off at poon on a disappointing prising most of the supply and selling at the top prices. Natives of a superior order were worth \$3,15@3,25. Lambs were plentiful at \$3@5.75. Extra lambs were worth \$5.85@6. Receipts-Cattle, 15,000; hogs, 26,000; sheep,

USES OF SALT.

A Few of the Many Things It Will Do for Humanity's Comfort. Philadelphia Ledger. Salt cleanses the palate and furred

tongue, and a gargle of sait and water is often efficacious. A pinch of salt on the tongue, fellowed ten minutes afterward by teeth white and sweetens the breath. Cut flowers may be kept fresh by adding salt to the water. Weak ankles should be rubbed with solution of salt, water and alcohol. Rose colds, hey fever and kindred affections may be much relieved by using fine dry salt like snuff. Dyspepria, heart burn and indigestion are relieved by a cup of hot water in which a small spoonful of salt has been meited. Salt and water will sometimes revive an unconscious person

refreshed by bathing with warm water and salt. Public speakers and many noted singers use a wash of salt and water before and after using the voice, as it strengthens the organs of the throat. Salt rubbed into the scalp or occasionally added to the water in washing prevents the hair falling out, Feathers uncurled by damp weather are quickly dried by shaking over fire in which salt has been thrown. Salt always should be eaten with nuts, a dessert fruit salt used should be specially made. If twenty pounds of salt and ten bounds of muriate of ammonia be dissolved in several gallons of water and bottled many fires may be 62c: August, 624c. Corn dull and steady; No. 2 of water and bottled many hies may be mixed, 25c. Oats firm; No. 2 mixed, 174c. Rye dull; No. 2, cash, 31c. Clover seed active and burning article the fire is soon extinguished. prevented. By splashing and spraying the An incombustible coating is immediatel formed. Add salt to the water in which black and white cotton goods are washed Flatirons may be made smooth if rubbed over salt. Copper and glass may be quickly cleansed by dipping half a lemon in fine sait, then rubbing them over stained objects. Lemons and salt also remove stains from the fingers. Do not use soap after-wards. If a small teaspoonful of fine salt be added to a quart of milk it will ages. Market strong; State and Pennsylvania, be preserved sweet and pure for several days. A pinch of salt added to mustard prevents it souring. A smoldering or dull fire may be cleared for broiling by a handful of salt. Salt thrown on any burning substance will stop the smoke and blaze. Bread insufficiently salted becomes acid, dry and crumbles. Bread made with salt water is said to be good in some cases of consumption. When cabbage, onlons or strong-smelling vegetables have been boiled in pans, to prevent odors clinging to them, place some salt on the stove and turn the pans bottom up over the salt. In a few minutes the pans will smell sweet. All salads should be soaked in salt and water to destroy animaculae or small worms. Make a strong brine and water garden walks to kill weeds. A moderate quantity of salt stimulates their growth. Salt and camphor in cold water is an excellent disinfectant in bedrooms. Housemaids should pour sait water, after using it, down drain pipes. Sewer gas is counteracted by a handful of salt placed in toilet-room basins. Water for laying dust is more effective when salt is added. Sea water is generally used in English coast towns for this purpose. Rattan, bamboo and basket work furniture may be thoroughly cleaned by scrubbing with brush and salt water. Japanese and plain straw matting should be washed with salt and water and rubbed dry. This keeps them soft and prevents brittle cracking where traffic is heavier. Brooms soaked in hot salt water wear better and do not break. Bedroom floors may be kept cool and very fresh in summer if wiped daily with a

> PREFER UNCOOKED FOOD. Three Ladies Who Regard Cooking

as a Barbarity. San Francisco Examiner. There are three charming women in Berkeley who constitute the exception necessary to prove the rule that man is a cooking animal. They regard cooking as a barbarity. Their dainty palates rebel at the suggestion of any food that has had its crude nature modified by fire. To them the

chef and all his works are anathema maranatha. They eat three hearty un-cooked meals every day, and are as plump as partridges, as rosy as pippins and as happy as sandboys withal. This gastronomical eccentric trio consists of Mrs. L. Beal and her two daughters, Alice and Mary Beal. The Beals are a cultured English family. Their wealth and intelligence preclude the idea that their extraordinary diet should have been adopted through either economy or imperfect investigation into matters of science. They moved from England to the South Sea islands, where Mr. Beal was a representative of her Majesty's royal government. When Mr. Beal died there, they came to California, and have been living in a very pretty little place which nestles among the

Berkeley hills. It was during their residence in the islands of the South Seas that the Beals acquired their taste for uncooked food. The Beals are in no sense simple eaters of fruit. Their regimen includes all kinds of vegetables, cereals, fruit, berries-everything, in fact, except meat. But nothing is permitted to approach the oven or the pot,

the frying pan or the griddle.

The first article on the Beal breakfast menu is mush. That is, they call it mush, but no one would recognize it as the timehonored article. The raw material is taken from the original package and deposited in the dish of each breakfaster. To this is added milk to suit. The Beals do not confine themselves to one kind of mush, but devour by turns oats in different forms, corn meal and wheats, but always raw as the article comes from the grocery. To this are added fruit, nuts and one vegetable, all in a state of nature.

At luncheon uncooked bread takes the place of uncooked mush. Wheat, corn or barley coarsely ground and mixed with milk is the substitute for bread upon the Beal table. Luncheon is completed much like the breakfast. Dinner is completed by adding two veg-

etables to the luncheon menu and by varying the uncooked "bread." Any vegetable

that may be in season is allowed-string beans, cabbage, turnips, carrots, artichokes or asparagus, as the case may be. Green corn eaten from the cob uncooked is said to be a great luxury, and raw green peas are described as delicious. When fresh fruits are out of season the dry fruits are accepted as a substitute. Canned fruits are never served, because they are cooked be-fore canning. Among the dried fruits prunes find the greatest favor with the Beal family. Tea and coffee are never used, because the Beals regard the brewing thereof as a form of cookery.
"We live upon uncooked food, simply because we believe that it is the best," said Mrs. Beal. "It is not a religious mania, but is done because we are satisfied that it is proper from a scientific point of view. Our dietary habits are the result of our experience while living in the islands, and now that we are in the heart of civilization we do not see any reason to change it." The simplicity that is exhibited in eating is carried through the remainder of the house. The furnishing of the place is very simple, but of the finest that can be purchased. The floors of the house are uncarpeted, but are of hard wood, highly polished with rugs made from the pelts of the wild animals found in the islands. The raiment of Mrs. Beal and her daughters is as simple and yet as expensive as the

DEFY DEATH WITH IMPUNITY.

rest of their environments.

Extraordinary Risks Which Railroad Employes Frequently Take. New Orleans Times-Democrat.

"Familiarity with danger brings about an absolute contempt," said the man about town. "People who are compelled to engage in occupations which are considered risky begin with every nerve on a tension, and gradually lose consciousness that danger lurks about them and become practically callous. I saw this exemplified the other night while waiting for the Southern Pacific ferry to pull out from its pier. A bulky locomotive was puffing and blowing and tearing up and down the neutral ground on the river front, conveying cars to and from the big transfer vessel. "On acount of the steep grade on the incline the engine is compelled to put on a full head of steam, and consequently travels very rapidly for a short distance. While this was going on I observed one of the switchmen with a lantern on his arm step immediately in front of the locomotive. The big animated piece of mechanism came rolling along, and just as it seemed that the man would be overwhelmed he nonchalently raised his leg, inclined his body at an angle of forty-five degrees, and the next instant was on the fender and out of danger. "The slightest slip would have meant the switchman's death, for had he missed his footing he would have gone under the wheels, and yet I have no doubt but that he has been doing the act for some years and will continue to do so until he finally is crushed to atoms. Thousands of other railroad employes like him literally carry their lives in their hands, and really do not appreciate their danger. Constant intercourse with their occupation has rendered them hardened, and they step on and off moving trains with as little fear of the resuit as when an ordinary man steps over a door sill."
